

THE IRON COUNTY RECORD.

"The Press is the Lever by which the World is Moved."

VOL. 10

CEDAR CITY, IRON COUNTY, UTAH. FRIDAY, JULY 3, 1903.

NO. 27

IMPORTANT.

Miners trade with the CO-OP because they know their orders will be filled. And they do not have to leave their work to come to town for supplies; they send in their orders to us knowing that if what they want is in town they will be sure to get it.

If you are looking for Bargains, just read over the following list.

Ranges \$29.00 \$35.00 and \$50.00.

Barb Wire \$4.90 per 100 lbs. Heavy wire Fencing used instead of pickets 4 and 5 feet high, very strong and cheap. Screen Wire. Chicken Wire.

Hay Carriers and heavy rope for Derrick Forks.

Flour going fast at \$2.75 per 100 lbs.

The strongest and best Cedar City, made Screen Doors. Worth half a dozen imported ones.

Rubber Boots, \$3; save wetting your feet when watering your grain.

Canned Fruits and Canned Meat. Bacon, Hams and Cheese,

Fresh stock of Men's, Ladies' and babies' Shoes,

On satisfactory arrangements we carry you thirty days, and give a 5 per cent discount. Our immense trade is proof of our popularity.

Cedar City CO-OP.

C. J. ARTHUR, Supt.

SILVER

Owl Tea at 20 cents per Package is equal if not superior to any Tea on the market. If you have not tried it, ask your neighbors about it. Packed especially for us can be got nowhere else.

Carefully Compounded by a
Registered Pharmacist

BENJ. F. KNELL, Proprietor.

LOCAL ITEMS.

Harry Hunter's Lee is always clean and nice.

Harry Hunt, eldest son of Bishop H. W. Hunt is again confined to his bed by Bright's disease.

Mrs. Howe and daughter of Ogden are visiting the family of Christian Macklepreng, to whom they are related.

Who would be without a cool drink, when he can get a pound of good pure ice brought to his door by Harry Hunter for one cent?

Miss Maggie Corry has gone to Beaver to spend the "4th." It is whispered that when the telephone reaches our city Miss Maggie is likely to have charge of the office.

Raymond A. Wilkinson, one of the eight sons of his father, is visiting friends and relatives in this city for a spell in order to avoid a roast in the office of the Dixie Advertisers.

The telephone is coming this way. It is reported that the line is this side of Buckhorn Springs. In all probability it will beat the railroad, and the electric lights, and possibly the water system.

It is reported that several head of cattle mostly from Parowan have died in the range near "Sugar Loaf" recently. Several cases of animals being poisoned, by eating the weeds that are so abundant on the common this year, are reported.

We are credibly informed that Elder Randle Jones, son of our worthy mayor, will be home to-night from a mission to the Eastern states. Mr. Jones has been absent over two years, and in view of the continued illness of his elder brother Lamoni, his return will be doubly welcome.

The young man who has held the job of department of The Record level during the last year or ten months, has departed. It is probable that ere long he will sing "I wish I was (out) of Dixie, away, away!" yes as far away as possible. He is doubtless having a "Hot time in the old town to-night, boys."

That aggregation of beauty and intelligence known as the "Sunshine club" were responsible for a very pleasant sociable at the home of Miss Lannie Parry, last Sunday night, the occasion being the 10th anniversary of that young lady's birth. It is said that the young people had a very enjoyable time, even if it was Sunday.

Mr. John Carter and wife who have been in Cedar for the last month or two went home to St. George the middle of the week. Their daughter who has been under the care of Dr. Middleton for some time past is enjoying the cool air and mountain scenery at the Walker Ranch. Under the motherly care of "Aunt Charlotte."

Jensen Bros who have in hand the cutting of a large part of the lumber for the new Normal building, were in town the fore part of the week and report good progress on the lumber contract. One of the gentlemen remarked that he believed there would be no delay on their account. Asked as to the condition of the roads to the mill he said they were in fair shape.

The firm of Thompson and Frew came into town Tuesday. It appears to be in good health; at least it looked well. Our reporter shook hands with half of it, but did not venture to ask any questions, so we are not prepared to say what its business is in this part of the country, but it has business you may depend, for it is a combination that always has an eye to the main thing.

Slight injuries often disable a man and cause several days' loss of time and when blood poison develops, sometimes result in the loss of a hand or limb. Chamberlain's Pain Balm is an antiseptic liniment. When applied to cuts, bruises and burns it causes them to heal quickly and without maturation, and prevents any danger of blood poisoning.

Brutally Tortured.
For sale by All Druggists.

Wednesday morning early the mercury fell suddenly in these parts and almost broke its neck. Frost was lurking around on the mountain, and we are not sure but what he sneaked into the valley in some parts. About this time last year there was an attack of this kind. This old climate of ours seems to be getting so badly worn that it is not to be relied on. It might not be a bad idea to "chip in" and buy a new one.

Lewis at Work.

When Senator Lewis visited our country and was caught investigating the character and extent of the Iron claims, and the deposit much of which has not been claimed, we told our readers that it was significant. The Senator is, as we said far to busy to waste his time in strolling over the country for fun. In the light of the news which the three large dailies contain of the contemplated organization of the "Utah Iron and Coal Company," we feel justified in saying "We told you so." Mr. Lewis is fast achieving a reputation as an organizer and promoter that bids fair to eclipse anything in that line that has been done in this western country. In the vast Iron fields of Iron county he has found scope sufficient for even his enterprising genius. And our word for it he will push it not for all it is worth, for that is almost an impossibility, but for a better approach to what it is worth than has been done heretofore. It is a self evident fact that with the railroad tapping these immense bodies of ore it will be impossible to keep the iron out of the market, and the incorporation of this great company, is the logical result of the situation. That we shall hear no more of it as sometimes happens in these great prospective moves, is not at all likely, as there can be no doubt the senator gave out the information, and he would not have done so if he had not known what he was talking about.

We call special attention to the good news from Parowan this week which will be found in the Parowan correspondence.

Mr. and Mrs. Harry Bennett are expected home tonight. This will be Mrs. Bennett's first visit to Cedar City although she was born and raised here.

Mr. C. J. Arthur has Richard Bryant employed in renovating the premises recently vacated by Mr. John Carter and family, preparatory to the occupying of the same by Professor H. Claude Lewis.

A very enjoyable time was had by a number of young people at the home of Mayor Jones last Wednesday night, it being the 10th birthday of his eldest daughter, Miss Sadie. An ice cream supper was served, the attractions, and the "Sunshine club" were the principal participants.

Get a free sample of Chamberlain's Stomach and Liver Tablets at any medicine dealer's. They are easier to take and more pleasant in effect than pills. Then their use is not followed by constipation as is often the case with pills. Regular size, 25c. per box.

For sale by All Druggists.

Professor H. Claude Lewis and wife have a new daughter at their house who arrived last week. The young lady has our apologies for not making her arrival public, sooner, but her papa is partly to blame, for how could we know of it unless he told us. She is not able to come herself until she gets her new teeth.

Working Night And Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain fog into mental power. They're wonderful in building up the health. Only 25c per box. Sold by J. H. McDonald.

When you wake up with a bad taste in your mouth, go at once to any Medicine Dealer and get a free sample of Chamberlain's Stomach and Liver Tablets. One or two doses will make you well. They also cure biliousness, sick headache and constipation.

For sale by All Druggists.

The Herald.

The Salt Lake Daily Herald is the most reliable paper in the intermountain country. The Sunday Herald with its magazine section should be read by every one. \$2.00 per year, \$1.00 for six months. The Semi weekly Herald (Tuesdays and Fridays) only \$1.50 per year, with Orange Judd Farmer (Weekly) \$1.75. Strictly in advance. If it happens, it's in the Herald.

Mr. Oliver Hodgson, the contractor on the new normal building, was in town this week and while here made us a call. We learn that the gentleman has let the mason work on the building to Mr. Robert Bowman of Salt Lake City. Satisfactory progress is being made with the manufacture of the bricks, about ten thousand of which are put into the kiln every day. As soon as one kiln of brick is burned the bricklaying on the building will commence and the other bricks will be made as fast as they can be laid; in fact it is the idea to lay the bricks and make them, at about the same rate. Mayor Jones has the job of making the door and window frames, and Andrew Corry will supply the coal for the burning of the bricks. Mr. Hodgson hopes to complete the job this year. Besides his contract here, Mr. Hodgson has two other buildings on his hands, in Salt Lake City, one of which is the erection of a new five story structure on the site of the "Atlas block," which our readers will remember was destroyed by fire recently.

CORRESPONDENCE.

PAROWAN.

July 1st 1903.

(From our Regular Correspondent)
"No news is good news."

PINTO

Pinto June 29th 1903.

Our people who attended the Sunday school entertainment at Pine Valley recently, returned home on the 27th. A most enjoyable time was had, and all who were present were much pleased with the proceedings. Visitors were present from Hebron Grass Valley, and Gunlock. The presence of Pres't E. H. Snow added much to the interest.

Robert Platt is very ill with Pneumonia.

Toothache is epidemic here at present. A good dentist could make fine wages for a month more or less pulling teeth.

Every one seems busy preparing to celebrate Independence day.

President E. H. Snow, and councillor Thomas Cottam held meeting here last evening, giving much good timely advice and counsel. Elder Cottam had his daughter Emma with him.

LEEDS, UTAH

Leeds July 1st, 1903.

David McMullin who has been working at Milford the past winter returned home last Friday.

Ira S. McMullin went to Kanarra Saturday. He will lay the foundation of the new District School house.

S. Leroy Harris and family of silver Reef have been visiting at St. George this week.

Our "Strling" citizens will have the remains of their late friend, Mr. J. H. McDonald, laid to rest in the new cemetery, the building has received a new coat of paint on the inside.

Mayvaine Extension

(Deseret News.)

A prominent Iron county iron deposit owner in this city, and syndicate representative, stated today, as a matter of opinion, that the new management of the Colorado Fuel & Iron company, Rockefeller and Gould, would without delay extend the D. & R. G. from Marysvale direct into Iron county, and thence south to St. George also; that the great deposits in Iron county, would be opened, and the ore shipped to the furnaces at Pueblo. However, in time furnaces might be erected at Cedar, or some other location convenient, and the pig iron shipped out instead of the crude ore. It was claimed that the outlook now for the development of Iron county and the southern iron fields is better than ever before.

No pity shown.

"For years fate was after me continuously," writes F. A. Gullend, Verbena, Ala. "I had a terrible case of Piles causing 24 tumors. When all failed, Bucklen's Arnica Salve cured me. Equally good for Burns and all aches and pains. Only 25c at J. H. McDonald's Drug Store."

The Foreign Relations of Woman

In the July Delinicator, Miss Clara E. Laughlin discusses in a very interesting manner woman's foreign relations, that is her relations with those outside the family circle. Her point is that every relation, whether with superiors, inferiors or equals, is an efficient in the development of character. Admiration for those who are above one in wisdom, in ability, in goodness is an inspiration. Relations with inferiors, those who are dependent upon one, develop in one gentleness, tenderness, sympathy and the capacity to love to be a friend, is indeed woman's greatest distinction. With those who stand on one's own plane no relation is the-sided; for whatever good one does there is adequate return, if not in fact, in the consciousness of good deeds performed. It takes a deal of tact, also, to know when and what to give of one's bounty, for we can do harm in giving as in taking.

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Chas. Applegate of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 50 pounds." It's absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and all Throat and Lung Troubles. Price 50c and \$1.00. Trial bottles free at J. H. McDonald's drug store.
